## Picture News

### In the news this week

An update to the Highway Code has introduced a hierarchy of road users, which creates 'clearer and stronger priorities' for pedestrians. The Department for Transport claims that the changes, which are split into three main rules, have the foremost aim of improving safety for pedestrians, cyclists and horse riders. The changes came into force at the end of January and whilst they have been welcomed by cycling campaigners, the government has been accused, by some in the media, of not making the updates clearer and known to road users.

#### Things to talk about at home ...

- > What do you already know about the Highway Code? Can you ask any adults who you live with what they know?
- > Do you think it's important for everyone using our roads to know about the Highway Code? Who do you think should be responsible for making sure we know and understand the rules?

### Should everyone using our roads learn the Highway Code?
