Jodrell Bank Visit

On Wednesday 18th January, Y5 and Y6 visited Jodrell Bank and really enjoyed the amazing presentations along with the interactive models we got to experience.

When we first arrived, we went to watch a scientific presentation in which they carried out impressive experiments including: a miniature fire tornado and a plastic bottle rocket. They filled us with knowledge about the planets and people who investigated the interesting sights of space.

After lunch, we visited a room full of interesting models and facts about space. We filled in worksheets whilst taking in lots of information.

Lastly, we headed to an incredible space dome, in which they displayed several star constellations and awe-inspiring, realistic trip around the solar system. Multiple classmates agreed that this was the highlight of the trip.

Another fantastic school trip from St Anne's.
